

**Water Treatment Plant Operator
(Trainee – A)
Woodruff-Roebuck Water District**

Position Summary:

Join our team as a Water Treatment Plant Operator, and play a critical role in operating and maintaining the Woodruff-Roebuck Water District Water Plant. Ensure the efficient production of high-quality, potable water for public use, while adhering to all relevant policies, standards, and regulations.

Key Responsibilities:

- Regular inspection and preventive maintenance of plant equipment and systems.
- Monitoring of plant operations via SCADA systems and on-site inspections, adjusting feed and flow levels and chemical doses as needed.
- Conducting laboratory test on water samples to ensure water quality goals.
- Managing and documenting operational data and reports, maintaining compliance with DHEC and other regulations.
- General plant maintenance, including cleaning and custodial tasks.

Essential Skills & Experience:

- Class B Water Treatment Plant Operator License or ability to obtain one.
- Trainee, E, D, C, B, A Level Certification.
- Minimum of 1 years' experience in surface water plant operations.
- Experience in a Drinking Water certified laboratory.
- Valid SC driver's license and high school diploma or GED.
- Proficiency in basic computer operations, with strong verbal and written communication skills.
- Trainee through C Level will be required to know how to do all things listed above but under the supervision of a B Level or higher Certified Operator.
- Demonstrated problem-solving skills and ability to work effectively both independently and as part of a team.

Additional Qualifications:

- Knowledge of basic water chemistry, mechanical skills, and general troubleshooting.

Benefits:

- Competitive salary and benefit package.
- Opportunities for professional development and training.
- Dynamic and supportive work environment.

Interested candidates should apply with a resume and cover letter detailing their qualifications and experience relative to the position requirements. Ensure your application illustrates your capabilities in water treatment operations and your commitment to public health and safety.
